Invitation letter

from Slovak handsome boys

We would like to invite you to a three-day ARDF event Slovakia open. Just 30km from the venue of the 1st WYAC (2017) in the city of Martin you will have a chance to compete in four ARDF disciplines: 80m, 144m, sprint and foxoring.

Martin is located in the beautiful Turiec valley, which is set in between Malá Fatra and Veľká Fatra national parks. Turiec is a mixture of beautiful wild nature and historical heritage sights.

During your visit do not miss a chance to take a walk in the Gaderská valley, where you can visit the "Devil's gate" or visit the castle of Sklabiňa or stroll around Malá Hora in Martin to see the beautiful architecture of the Slovak national museum, Slovak national library and of the Ján Jeseniuss medical faculty, which is one of the best in central Europe. If you do not fear a little hike, we encourage you to visit the peak of Ostrá ("Sharp") or pay a visit to a cosy cabin under the peak of Magura.

You will have a chance to taste the beautiful nature of Malá Fatra during the competitions, which will take place both on the side of the mountain range and on top of it in the Martinky ski resort.
